

## Rodgigo Ibata

**Talk Title:** The Pan-Andromeda Archaeological Survey (PandAS)

**Talk Abstract:** The Pan-Andromeda Archaeological Survey is a CFHT Large Programme that has mapped out an immense region of the halo of the Andromeda galaxy, extending out to beyond 150 kpc from that galaxy and covering also M33. In this talk I will review what has been learned about the properties of the stellar halo and its sub-components from this experiment.
