

The role of accretion and ejection variability in the evolution of young stars and their disks

Workshop at ESO Headquarters
Garching near Munich, Germany

19–22 May 2025

Main topics

- Accretion variability
- Outflow variability
- Accretion – outflow connection
- Connection to outer disk scales

Scientific Organising Committee

Richard Alexander (University of Leicester, UK)
Jérôme Bouvier (IPAG, France)
Justyn Campbell-White (ESO, Germany)
Jochen Eislöffel (TLS Tautenburg, Germany)
Catherine Espaillat (Boston University, USA)
Carlo Manara (ESO, Germany)
Brunella Nisini (INAF Roma, Italy)
Christian Schneider (Universität Hamburg, Germany)
Beate Stelzer (Universität Tübingen, Germany)
Emma Whelan (Maynooth University, Ireland)

Invited Speakers

Laura Venuti (SETI Institute, USA)
Andrea Banzatti (Texas State University, USA)
Catherine Dougados (Université Grenoble Alpes, France)
Rebeca Garcia Lopez (University College Dublin, Ireland)
Geoffroy Lesur (Université Grenoble Alpes, France)
Greg Herczeg (Peking University, China)
Connor Robinson (Alfred University, USA)
Gabriella Zsidi (University of Hertfordshire, UK)
Aisling Murphy (Academia Sinica, Taiwan)
Aurora Sicilia-Aguilar (University of Dundee, UK)
Francesca Bacciotti (Osservatorio Astrofisico di Arcetri, Italy)

Local Organising Committee

Justyn Campbell-White (ESO, Germany)
Carlo Manara (ESO, Germany)
Denisa Tako (ESO, Germany)
Karina Mauco (ESO, Germany)
Hala Alqubelat (ESO, Germany)
Lara Piscarreta (ESO, Germany)
Claudia Toci (ESO, Germany)
Mari-Liis Aru (ESO, Germany)
Géza Csörnyei (ESO, Germany)
Natanael Gomes de Oliveira Isidio (ESO, Germany)
Luigi Zallio (ESO, Germany)
Aaron Empey (University College Dublin, Ireland)
